

RENAN MACHADO

Backend Developer

renanoliveira2199@gmail.com • linkedin.com/in/renanoliveiram • github.com/renanm99 • São Paulo

Summary

Software Developer experienced in backend development, proficient in crafting innovative solutions, efficient problem-solving and resolving complex challenges. Demonstrated expertise in database management, including data design and maintenance. Skilled in data analysis and application troubleshooting, underpinned by a solid Computer Science foundation.

Passionate about new challenges within my current role while seeking opportunities for professional growth in the run. Also been experienced in technical leadership, team and tasks management. Dedicated to nurturing professional development and empowering teams for value-driven deliveries.

Experience

Avanade

São Paulo

Software Developer

09/2021 - Present

- Backend development in implementing, fixing and updating code for new features based on detailed design specifications while integrating data from business rules and web application. Ensuring code excellence, conducting data analysis, solving complex problems and a strong emphasis on database design, maintenance, and analytics.
- Collaborated closely with cross-functional client-product teams to understand requirements and business specifications, while also maintaining data and business rules using Microsoft SQL Server.
- Also supported colleagues with application troubleshooting, code review, and peer review tasks, while assisting senior team members with team and task management under the Agile Scrum framework.

Junior Software Developer

09/2019 - 09/2021

- Addressed, developed features and fixed complex bugs and various application issues.
- Implemented and updated application modules under the direction of Senior Software Developers.
- Worked at an independent level, documenting solutions while serving as an effective and enthusiastic collaborator.

Software Development Intern

09/2018 - 09/2019

- Gained valuable experience in troubleshooting software and resolving ticket issues.
- Documented issues, understand requirements and business specifications.
- Contributed to the development of tools aimed at streamlining software and data maintenance processes.

CrazyTechLabs

Intern Software Developer

2017 - 2018

- Internship focused on software development using Microsoft tools, including .Net Core, ASP.Net Core, non-relational database MongoDB, Azure, web development with Javascript and Node.js and other development for IoT solutions.

Education

Universidade Anhembi Morumbi

Bachelor of Computer Science

2017 - 2021

Universidade Adventista de São Paulo

Software engineering program school and School internship program

2014 - 2016
